Senior Writer
Muscle & Fitness Magazine

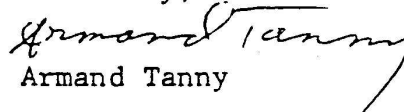

Dear Ms. Averill:

It is my understanding that Stephen J. Ford, Bill Howard and Joe Mack of the Venice Beach Recreation Center's weight pen membership have formed an ad hoc committee to institute the title "Muscle Beach Venice" to the Venice Beach weight pen.

As a representative member of the original "Muscle Beach" in Santa Monica during the post World War II period, I see no conflict with titling the weight pen "Muscle Beach Venice". It is clear to me that the title for this facility is distinguishable from the one that existed in Santa Monica. I believe that this would be a positive step in the Venice Beach upgrading effort.

Please feel free to contact me if you have any questions or need additional information.

Sincerely,

Armand Tanny
