Darlene then indicated that this first meeting will be relatively informal with no official officers or members at this point. She also suggested that Steve Ford act as temporary chairman, as he had created the meeting agenda for distribution.

Steve Ford thanked Darlene for the opportunity to help, and for her bringing the group together in the new formal structure. Steve asked members to refer to, and follow, the agenda items for discussion.

I. Discussion of Committee - - Purpose and Structure

B. Determine committee membership roles and responsibility.

1. The following comments were made about committee membership:

* Bill Howard-members should set an example and be conscientious about the needs of the facility. Most

important is that Muscle Beach Venice represents the bodybuilding capitol of the world and members should seek ways to help the facility improve.

- * Bud Mucci-Committee members should accept their roles as examples for other members. Committee members should take extra pride in the facility and look for areas to improve.
- * Malcolm Arnold-committee members may work together to see that the revitalization of the pen is a success. The city has not given a lot of attention to the facility, and this committee is in a position to help get the action needed.

After the vote Bill Howard thanked Charles Chu for taking his own time to visit for the meeting, as well as extending himself to meet the requests of "Muscle Beach Venice" membership.

B. Unveiling of new "Muscle Beach Venice" sign

1. Darlene Galindo reported that it is hoped that a representative council person will be available for the unveiling, but that she was not certain that the council person would be Pat Russell. There will be an election on April 14 in which Pat Russell may or may not, obtain another term. Bill will remain in contact with Arnold to learn his availability. Bill stressed the need of three primary committees to immediately begin action and preparation for the May 31 date: Physique Committee; clean-up committee; and public relations/picnic committee. All members present agreed to support the project between monthly meetings.

C. P.A. System

Darlene Galindo reported a P.A. system status update on behalf of Art Baker, who was not present. Darlene will follow-up.

- B. Equipment Committee - Jerry Werling provided a list of equipment recommendations for review. Jerry indicated his equipment list shows too much equipment to fit into the new weight-training area as designed. Bill Howard asked that Jerry re-evaluate his equipment consideration. V. Old Business

Bill Howard and guest member Clifford Mosby suggested further investigation of Muscle Beach Venice logo design trade mark or design registration. The committee suggested having the artist involved with volunteer work with Steve Ford sign a formal release for his involvement with the logo. Steve explained that the artist has requested compensation for the design, if it is possible.

The committee responded indicating that the city has agreed through Darlene's approval, to create a paid finished "mechanical" of the logo artwork, to be done by the design artist, but never entered or contracted into an agreement to solicit the initial design artwork originally submitted to the city in _____ 1986. Steve agreed that the project was a volunteer proposal idea, but suggested that people might offer personal contributions beyond the city's payment for the finished "mechanical" art. The committee accepted Steve's suggestion, and also suggested that the artist receive credit in all articles, where possible, arising from the official title, as well as be offered the option of putting his name somewhere on the logo at this time, if the artist wishes.

To Committee Members:

Thank you very much for the opportunity to have served with you in support of the initial Muscle Beach Venice upgrading efforts.

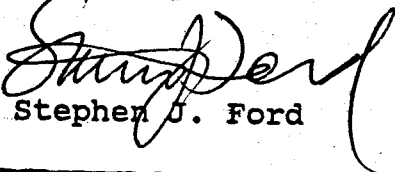

While there are still major steps to be taken, we have contributed a great deal to laying a sound foundation for the future of Muscle Beach Venice. Some of the objectives we've obtained include the following:

- o Official re-naming of "The Pen" as "Muscle Beach Venice".
- o Successfully achieved open communication between city planners and MBV membership for upgrade planning and construction.
- o Received public endorsements from both government and private institutions.
- o Renewed credibility for Muscle Beach Venice bodybuilding and powerlifting activities and participants.
- o Added prestige and respect for the Venice Beach community.
- o Secured local, national and international publicity for "Muscle Beach Venice" in print, radio, and television media. Increased credibility for media attention of future events.
- o Formed the nucleus of an organization that has the potential to succeed in achieving even greater goals and long-term objectives.

As you know, I've served as a volunteer worker for the past thirteen months to help achieve the "Muscle Beach Venice" name change, and contribute to the general upgrading effort. This project has been a labor of love, however, I now must return my focus to career responsibilities.

Although no longer active on the full committee, I will be happy to offer assistance as an occasional worker at the sub-committee level, if a need develops. I look forward to your future successes, and the growth of Muscle Beach Venice.

Sincerely,

Stephen J. Ford

Dear Venice Beach Volunteer:

Its that time of year again to start planning the 1989 calendar of events for the Venice Beach Athletic Center Complex.

This year I felt since you had some input with the planning of our new facility, that it would be appropriate for you to help plan the calendar of events and in planning our "gala" open house (that we are to have according to the powers) in June.

Please have some idea of when you want tournaments for your special interest group, i.e. paddle tennis, basketball, etc.

Remember that our programs would not be a success without volunteers and permittees as yourself.

TRIVIA TIME--There's a city park and museum in the harbor area formerly owned by a famous 19th century land developer and general. What is the name of this one-time tycoon? See last page.

NEW SOCCER FIELDS--A \$657,446 contract for development of new soccer fields in the Riverdale area of Griffith Park received the go-ahead from Commissioners this week.

A ground breaking will be held within a few weeks for the construction of the new soccer fields, which will come as great news to soccer players in the city. There has been a real shortage of soccer facilities for the hordes of soccer players in the city.

MUSCLE BEACH VENICE--Musclemen of Venice Beach will be flexing their biceps when they get this news from Recreation and Park Commissioners. The board approved a contract for \$505,700 that will provide the iron pumpers with a new weight lifting area, as well as staging and reviewing area for onlookers. The project will replace the old, outdated area at the Venice Beach Recreation Center.

TURNING BACK THE CLOCK--Looking back 20 years ago this month to the January, 1970 issue of Rec and Park News, we note the following stories: Department to hold patriotic observances to honor Washington and Lincoln birthdays during February at rec centers throughout the city, utilizing costumes from the one-time costume workshop...The department's Horticulture Division conducted its 19th annual rose pruning demonstration at Exposition Park's Rose Garden...Four eastside recreation centers received sportsmanship trophies from Athletes for a Better America during flag football tournaments. Making the presentation was Ed Crockett, of Ross Synder, to Jess Kimbrell, Glassell Park; Tom Davidson, Highland Park; Wallace Curry, Eagle Rock and Robert McCray, Boyle Heights.

TRIVIA ANSWER--He's Gen. Phineas Banning, whose 20-room mansion in Wilmington is now the restored Banning Residence Museum. The general enjoyed climbing to the lookout at top of the mansion from which he could observe ocean going vessels entering and leaving the harbor, and with telescope he could see the skyline rising in the center of Los Angeles. Two thumbs up if you got it right.
